About Me

Quality Assurance enthusiast with a Bachelor's degree in Computer Science from Gunadarma University. Gained valuable experience working at PT. Satria Antaran Prima Tbk for over a year, where I have successfully developed and enhanced testing workflows. My expertise includes Smoke, Sanity, Regression, and API testing, as well as automation testing using Cypress, Selenium, Katalon Studio, and Postman. Able to implement best practices and create comprehensive testing documentation. Committed to continuous learning and improvement in the field of software testing and quality assurance.

Work Experience

PT. Satria Antaran Prima Tbk

Quality Assurance (May 2023 - Present)

- Managed comprehensive testing documentation, ensuring clear communication and tracking.
 - Conducted Smoke, Sanity, Regression, and API testing.
 - Developed and improved testing workflows, enhancing overall processes and outcomes.
 - Established a dedicated testing/staging environment, reducing production risks by enabling thorough pre-deployment testing.
-
